Morrisville, NC 27560

### **“Montie Gear Over Everything Else”**

Montie Gear products are Heirloom Quality and Troublesome Gap Tough. We pride ourselves in the fact that you can come to North Carolina and meet just about everyone that touched your product from beginning to end. This type of manufacturing intimacy only comes from locally made products, which are rare these days.

“We like the pause that we see when customers first pick up and hold a Montie Gear product, like our Y-Shot. That pause results in a sudden loss of concentration, surprised expression, followed by words like ‘oh that’s nice’, or ‘wow’. There are few greater compliments than the unspoken one that occurs when a customer holds your product and the childlike joy from the quality and feel stops the conversation for a few precious moments” says Montie Roland, President and Founder of Montie Gear.

Look to Montie Gear for outdoor products that make your camping, shooting, or slingshot experience better. Know that your Montie Gear product is the result of the innovation occurring between the Montie Gear staff, enthusiastic interns, and vendors that share the Montie Gear vision of high quality, high performance, well designed products. We won’t let you down.
